Printing of Educational text books at the Press

From

The D. P. of Edn

No. 1/200 Dated Received

Diary No.	Enclos.	Spare Copies.	Serial No.

BRIEF ABSTRACT OF LETTER.

Bringing to notice difficulties experienced in having school text books printed at the Govt Press & requesting that suitable arrangements may be made for getting the work done smoothly

NOTES AND ORDERS.

1) Chief Secy orders-
"Under Secy for a note after Consulting Press Supdt"
Sd K.B.
12.4.24

P.T.O.

NOTES—First Sheet.

General and Revenue Secretariat. | P.W.D. File No. 65 of 1923-24

Serial No.

2. The printing of Edn.l text books was being done at the Govt or private presses, proceedings to Government & the Cost thereof met from the grant in the Edn. Budget.

3. When by G.o Nr. In 522-87/Pts. 6-20-72 & 2.8.21 all Govt printing work (including Edl. books) was concentrated in the Govt Press, the grants made in the different departmental budgets were transferred to the Press budget & the Govt Press was thereafter expected to execute all Govtl. work (except Rys. & Universities) free of Cost. The grants of the Press were in subsequent years regulated to meet the increased work consequent on the above arrangement.

4. But a provision continued to be included in the Edn. Budget for printing Edl. Books & when the Supdt raised the question of transferring this grant also to the Press budget he was informed that, as much as the Press budget included provision for

NOTE—Contd. sheet.

printing Edn Text books; the grant in the Edn budget may be treated as a source of receipt for the Press (Vide Copies of Govt put up in P.S. 23/23 & 1-6)

7 Jan 24

5) The Supdt. Govt Ptg has raised the question that at least a portion of the payments made by the paying depts should be made available for the expns of the depts. This is separately under consideration

7 Jan 24 Sd

Subdt

6) The main points on which attention has to be concentrated now are:—

(i) whether the present grants of the Press & stationery do not include the outlay necessary for printing the Edn books, & if so, whether the Supdt may not be asked to carry out the entire work of the Edn dept, without expecting any extraneous helps in the shape of funds.

III-2]

increased by Rs. 25,000 if the paper has to be found by the Stationery Department or the grant reduced by Rs. 10,000, the paying Departments being made to pay for the articles of Stationery required. All things considered, the latter alternative seems to be the more desirable one.

15) The real difficulty this time was the want of paper In view of the urgency, the Superintendent has been cutting large size paper into required size and hurrying on with the printing work. Sanction has been recently given to the purchase of extra quantities of paper and supplies of the extra paper are soon expected. As soon as they are received, the remaining books will be printed off In the meanwhile, the stock of paper on hand will be used, such stock being replenished from the extra supplies now on order.

16) The situation may be explained to the Inspector General of Education and he may be assured that all possible efforts are being made and will continue to be made to push on with the Educational books.

Chief Secretary) Cals 25/4.

I discussed this matter
with Mr. Puttaiya yesterday
afternoon. An extra
provision of Rs 15,000/- has been
made for the current
year and Mr. Puttaiya
assures that he would see
that the books are put through
properly. He wants the
existing arrangement to continue
during the current year and
the matter taken up for

Serial No.

examination of necessary at the end of the year. The matter may therefore be dropped for the present.

A

30/ There is one matter that deserves notice. At present, certain Depts, viz, University, Railways, Insurance and Education (for books only) are supposed to pay for printing & Stationery required for such printing. It is only a book adjustment. The Grant allowed to the Press and Stationery Depts covers the Charges for printing and Stationery of all the paying Depts whether the provisions made under expenditure in the budgets for the paying Depts except Insurance and the provision under receipts in the Press & Stationery budget may not therefore be omitted altogether is for consideration

B

31/ Under the existing arrangement expenditure & receipts are

G. R. S. III-2.

Serial No.

both Houses of the Legislature for thereby enabling to be useful purpose the expenditure & receipts in the State Budget. ~~The Finance Dept stands on a different footing~~ The opinion of the Financial Secretary may be obtained in the matter.

Chief Secy 2/7

37) I agree with A & as regards B, I am not sure whether the proposal is feasible. The Universities, Railways must pay for their printing, provision for this expenditure has to be made in their budgets. What is feasible is to enter such receipts in the Expenditure side of the budget under Stationery & Printing & a decrease entry. The final Secy may be consulted as proposed.

by 3/7

39) A draft as per orders to subd.

40) orders are also solicited on the follg points

(1) It seems necessary to issue with this G.O. an up-to-date list of the offices & depts which are expected to pay for

Serial No.

for printing work done in the Press or supplies ~~received~~ made from the St.y Deptt. The list found in the G.O. of 11th June 21 is incomplete as the Insurance office & the Electrical Deptt. do not find mention therein. An up-to-date list of all paying depttts may be called for from the Supdt. Govt Printing & St.y.

Stationery deptt. Proceeds for-

(ii) Orders are also necessary as to what classes of ~~Cash~~ receipts are to be included in the deduct entry to be made on the expr side in the Printing & St.y budget. Also in this connection also, the Supdt may be consulted in order to get a correct idea of the different items which form the present receipts of the Press & St.y Depot.

(iii) By making a deduct entry, the Press & St.y Depot will have to a certain extent be dependent ~~on the~~ for expr on the payments they get from the Paying Depttts. Arrangements seem necessary for the very prompt adjustments of the bills of the Press & St.y Depot in order that no inconvenience may be caused by the delays of depttts in adjusting such bills.

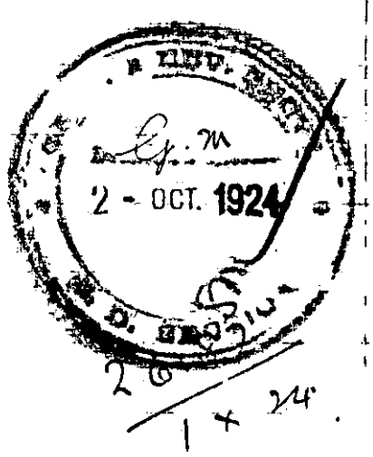
59) Forwarded with Compliments to the Comptroller unofficially for favour remarks on the draft Govt order proposed

"By order"

for Chief Secretary to Govt.

17870



Unofficial No.342/TAD B. dated 30th Septr. 1924.

61) Under the procedure proposed to be given effect from 1st July 1925, items 1, 3 and some portion of 2 under "XII.Stationery & Printing" will have to be brought under "16. Stationery & Printing" as a reduction of expenditure

62) If this is done Audit will, as at present, have to be conducted against the gross grant to be provided in the Budget Audit with reference to receipts or audit of net expenditure is not practicable as the progress of expenditure cannot be expected to keep pace with receipts or the monthly proportion of the one compared with that of the other. Excess or deficiency in receipts resulting in less or excess net expenditure as compared with the Budget will be known only at the close of the year. It will also be difficult for the Superintendent to gauge his additional requirements if any in the course of the year if he has to apply for additional grants or suggest reappropriation.

Comptroller.

NOTE—Contn. sheet.

CV

Serial No.

(63) Submitted with reference to orders in para 56 and 3 above

(64) Whether the Comptroller is in favour of the procedure proposed or is against it is not clear. I discussed this matter with the Ch Secy and the Fin'l Asst Secy and Financial Secy. The proposal to give a deduction to the Press Supdt on the Expenditure side for work done for commercial departments seems to have at its back the idea that the amount provided on the expenditure side of the press budget is insufficient for all the work that the Press is sometimes asked to do and that this procedure will place further sums at the disposal of the Press. This view however seems to be not correct. The Comptroller proposes to credit the gross expre against the gross grant; which means that any receipt from another dept. will still be not available for expre if the total exceeds the gross grant. Whether a deduct is given or is not given, the Press will have to provide in its budget for all the work that is expected to have to be done in each coming year. To do this it will have to get information from all the depts before framing its budget for each coming year as to how much work they expect

NOTE—Contn. Sheet

Serial No.

dead to it in the coming year

65) The only advantage of the procedure proposed is that it prevents the inflation of the gross receipts and expdre in the State budget by a repetition of provision for printing both in the departmental budgets & the Press budget — by one sum being shown under printing expdre in a department and as receipt and expdre again in the Press. This has some advantages but not in the direction of giving the Press Supdt more money than the gross provision in the budget to spend. In this view the proposed part of the Govt. will have to be modified.

Chief
25/11/24

Chief Secy)

Press Supdt. might be consulted and with this, in the circumstances, the procedure proposed, offers an appreciable advantage from his point of view

20.xii.24.

Rec'd 29/12

Dw
29/12

Ch Sec'y)

64) Submitted for perusal. The proposal appears to seem like all right & forward but it does not improve the position of the Revenue concerned the Govt's position is that the demands of the Depts for Education, the Movement, Sewerage, Electricity, and Rail under this permitted to utilise the receipts from these Depts. for purchase of paper payment of wages, his budget will altogether upset.

Ch
29/12
JG

70) Secretary Member

1/21

71) I'm sure the suggestion comes to nothing. The question is raising a few other questions which the Govt will not be prepared for the present

72) The present system may continue. The Central Budget grant of the Rev. Dept is increased if more than to increased demands of Imp Govt or any other Dept in any year

NOTE—Contn. Sheet

Serial No.

this remedy within the sanctioned amount by framing a supplementary demand (charged against the Deficit Contingency) if necessary?

9/1/23

9/1

73) It is submitted that the difficulty raised by the Superintendent Govt printing relates only to the question whether unbudgetted payments made by the other departments are available for expenditure to the Press. The portion of the draft order relating to this point may have to be modified but it seems necessary to pass an order re the departments which have to pay the Press for work done for them and as to how the payments should be shown in the budget. The mere entry arrangement does not give extra funds to the Press for expenditure but it will mean that each Deptt forecasts its requirements for inclusion in the budget and shows all such amounts in the budget without inflating the totals. In this view

Serial No.

It is desirable to introduce the minor units exp. into the budget for other reasons than to make ~~the~~ unbudgetted payments available to the Press.

74) If this view is appd. the draft in the file will be suitably modified omitting paras and adding a para re. procedure for inclusion of forecasts in the Press budget.

Post Box No. 8

DEPARTMENT OF EDUCATION
GOVERNMENT OF MYSORE.

D. O. No. 1/200

BANGALORE
11th APRIL 1924

My dear Matthan,

You may recollect my speaking to you about certain difficulti in getting supplies of departmental school books printed at the Government Press.

I enclose a statement showing the names and other particulars of books for which indents have been sent to the Government Press in 1923-24 and previous years, which indents have yet to be compli with.

In response to a suggestion by the Superintendent of the Press that it might ease the situation if the number of copies indented for could be limited to the demand for one year only, the numbers of copies wanted have been reduced in some cases as shown in column 4 in Statement (D) and the reduction has been intimated to the Superintendent.

You will see that quite a larger number of books, many of which are very urgently wanted, are still in the hands of the Press and that in many cases the stock in the Depot is very low and quite unable to meet the rush that will occur for books as soon as the schools are reopened after the Summer vacation in May and June. You will also see that supplies have to reach the various out-agencies and Branch Depots well in time before the schools reopen. I need not enlarge on the serious inconvenience that will be caused to boys and schools and school work by any delay in the supply of books in time. Last year a good deal of trouble was caused by the delay in the supply of the Panchatantra (one of the text-books) till January 1924.

I enclose copies of letters received from the Superintendent of the Press in which he assigns as the cause of the whole trouble certain difficulties in the way of his securing a sufficient supply

of printing paper. I do not know why this should be so, especially in view of the assurance conveyed in para 2 of letter No. E.6256/P.& S. 5-22-20 dated 23rd May 1923, from the Revenue Secretary to the Superintendent (copy enclosed) that "the grants of the Press are adjusted to include the cost of printing the Education Department publications also." Though I am prepared in an extreme case and as a last resort to spare some funds from my budget to purchase paper for printing the books, yet if my sacrifice is only going to figure as "Press Receipts" and not really help to my buy the extra paper, so badly wanted as stated in para 1 of that letter, I do not see why I should make such a sacrifice of my grants to the prejudice of my other requirements. I would also invite attention to the fact that the expenditure on paper for these books is really in the nature of an advance, for the whole outlay is recovered withsome profit in a year or two at the utmost by sale of the books, and the proceeds credited to Government under "Books and Maps".

I hope you will agree with me in thinking that the situation is extremely grave and that the scarcity of a large number of departmental ~~and~~ school-books will cause a most serious dead-lock in school work.

I have no wish to make any personal complaint against the Superintendent for he has been on the whole trying his best to meet the requirements of the Department, but there is some-thing out of joint in the system and this requires to be set right if such difficulties are not to recur.

I shall feel much obliged if you can kindly look into this matter and bring about a coordination of outlook and methods between the two Departments and the Secreteriats dealing with them, so that this annual warfare may be avoided and greater smoothness in working may be attained.

Yours sincerely,

C. Rajagopalachariar

To

K. Matthan, Esq. B.
Chief Secretary to Government
Ootacamund

(29

Copy of D.O.No.3366 dated 31st March 1924 from the Superintendent, Government Printing, Bangalore.

With reference to your D.O.dated the 29th March 1924, requesting to make arrangements for the printing of the Kannada Lower Secondary Text for 1925, before 10th April, I write to inform you that the poetry portion is all printed. Out of the prose portion, 112 pages are being printed and the remaining 48 pages have to be approved by the Department for printing. Proof of these pages are being sent to-day Please arrange to have these passed for print immediately. The S.S.L.C.Text is being composed and proofs will be sent to you shortly.

You are not unaware of the difficulty for paper for printing these books that is being experienced. I have already written to you that my supply of 1500 reams of paper on this year's indent has already been exhausted and that unless I get a fresh supply I have no paper to print the educational books. You have also been approached to kindly move Government to sanction the purchase of 2000 reams of paper and I was informed that Government have been written to and that I may go on with the printing Though it is nearly two months, no reply has been received Believe me, I have not a shred of demy paper with me now.

Seeing that no reply came from your office and finding that many departmental books are pending printing for want of paper I have again approached Government myself requesting them to sanction the buying of demy paper out of the savings effected the stationery Budget this year. The purchase of 500 remas has been sanctioned and the purchase of the remaining quantity is pending sanction. This paper will not come to hand till June as it has to be manufactured in England and transported here

30)

While I am placed in such straits for paper, I am being asked to make arrangements to print and supply the Text Books forthwith. I realise that the Kannada Lower Secondary Text is wanted immediately and in order to place the book on the market at once, I am having my slender stock of royal paper cut into demy size in order not to delay the printing of this book. I hope to be able to issue the book as soon as the 36 pages of proof are passed for print and the price is fixed. I mean to adopt the same procedure for paper for the S.S.L.C. Text also as I have no other alternative. Both these books consume over 500 ~~x xxx~~ reams of paper.

I hope the above account will convince you of the special efforts that are being made to printing off the Departmental books that are wanted urgently.

Yours

Inspector General.

Copy of letter No.E.6252/P.& S. 5-22-20 dated 23rd May 1923, from the Secretary to Government, Revenue Department, Bangalore to the Superintendent, Government Printing, Bangalore.

With reference to your letter No.2690 dated the 12th May 1923, stating that the printing of the Educational Text Books will as hitherto be executed at the Government Press and bills therefor sent in future to the Inspector-General of Education for adjustment out of the grant made for the purpose in the Education budget, I am directed to state that Government have no objection to the course suggested provided the payments received from the Education Department figure only as receipts of the Press and are not expected to be available for meeting the expenditure of the Press.

The grants of the Press are adjusted to include the cost of printing the Education Department publications also.

D.O. No...3.6.0.6./one

Mysore Government Press.

Bangalore 23rd April 1924.

Dear Sir,

With reference to your D. O. No: G. 13809, dated the 17th instant, enclosing copy of D. O. No: 1/200 dated 11th instant, from the Inspector-General of Education in the matter of printing the departmental Text books, I beg to enclose a complete list of the books received for print from the Education department with their progress made in printing them noted therein.

It will be seen that out of the 38 books received, 16 books have been printed and despatched. Of the remainder, 8 are almost complete and will be despatched in a few days, proofs of 4 are pending in department, 3 are pending preparation of blocks, 3 are in various stages of composing, 2 are untouched and 2 are partially printed. On the whole we may take it that 28 books have well-nigh been completed. There is likely to be some delay in the case of the remaining 10 books. Of the ~~mentioned~~ untouched books, one is a Urdu book and the other is

Amara which is not required by department now.

As I have already intimated the Inspector-General of Education, I am cutting up some larger sizes of paper to demy size and using Crown size paper also in order to push on to completion the almost completed books. Government have recently ~~sanctioned~~ sanctioned the purchase of paper out of the savings in the Stationery budget for the educational books. It is now on order and is expected next month. As soon as it is received, the other pending books which consume a large quantity of paper will be put through and completed. In the case of Urdu books pending at Branch Press, the progress could not be better as there are only two Urdu compositors whose time taken up much in printing the University question papers. If I get the paper in May, I shall do my best to print off all the pending books by the end of July.

Yours sincerely,

B. Suriaiya

D.v.s.

P&J. 65-25-3

Proceedings of the Government of

H.H. the Maharaja of Mysore.

Read:-

Correspondence ending with letter No.G.14616/P&S. 65-23-24 dated 12th May 1924 to the Inspector General of Education about the difficulties in getting school text books printed at the Government Press.

2. Correspondence ending with letter No.338 dated 26th July 1924 from the Superintendent Government Printing bringing to notice the inconvenience felt in the Press and Stationery Depot on account of the uncretainty about the requirements of the departments which pay for their work and the need for making the payments received from these departments available for expenditure in the Press and Stationery Depot.

Order No. G 6367-89/P&S 65-25-3

Dated Bangalore, 14th February 1925.

Government observe that certain departments worked on commercial principles like the Electrical Department are not paying for services rendered by the Press or Stationery Depot. They are therefore pleased to Government direct that all ~~departments and bodies which have their own funds~~, and departments ~~and~~ institutions (local bodies which have their own funds and also) whose accounts are made up on commercial principles, ~~and~~ departments which get

P.T.O.

their books or other publications printed for sale and propoganda should in future pay for the services rendered by the Press or supplies made from the Stationery Depot. These departments are:

1. The Mysore University	For printing work done or stationery supplied.
2. Offices of the Mysore State Life Insurance	do
3. The Electrical Department	do
4. The Mysore Railway Department	do
5. All Factories and workshops of the Industries and Commerce Departments	do
6. The Bhadravati Iron works and the Mysore Iron Mines.	do
7. Miscellaneous offices and institutions such as:-	
The Public Libraries of Bangalore and Mysore (For stationery supplied)	
The Seed Depots of the Gardens Department (For printing and Stationery)	
8. The Education Department	(for text books printed and stationery supplied for local examinations)
9. The Agricultural Department	(For the Agricultural Calendar and special bulletins and pamphlets printed)
10. Local Boards and Municipalities and such other offices and institutions as may be specially included.	(When they send any printing work)

2. The payments made by departments like the Railway and the University for printing work done at the Press are at present merged in the receipts of the Department and are not available for the expenditure of the Department. In cases in which the ~~printing~~ work required to be done has not been foreseen and provided for in the budget there is some dislocation of work in the Press. In order to avoid the - -

inconvenience caused by this procedure, the Superintendent of Government Printing proposes that the payments made by the Departments for work done to them be made available to the Press for expenditure in connection with such work. Government observe that the inconvenience complained of is real. They consider however that to make the amounts paid by the various departments available to the Press when the work comes up to be done will not meet the difficulty as it is also necessary for the Press in these cases to consider beforehand what equipment is required and this cannot be done if work is given to it without previous intimation. The remedy lies in the Departments concerned foreseeing the quantity of printing work that is likely to arise and keeping the Press informed of the same. To ensure that this is done, Government direct that each of the departments above referred to should make a provision in its budget estimates for payments to the Press for the printing work likely to arise in the course of the ensuing year and intimate the same to the Superintendent Government Printing in the month of February. The Press budget will show all such amounts as minus entries on the expenditure side indicating a gross and a net grant for expenditure. Both the Press and the Departments concerned

will thus have a clear idea of the printing work that might have to be done on their account in each financial year. The Printing work from ~~of~~ these departments other than that provided for in this manner will not ordinarily be undertaken in the Government Press without the sanction of Government and necessary funds therefor being placed at the disposal of the Press by the Departments concerned.

3. This ~~The~~ procedure of minus entries will not ~~however~~ apply to payments received from local bodies for publication of matter in the Gazette or for the supply of spare copies. Such payments may continue to be shown as receipts in the Press Budget as heretofore.

4. The revised arrangements will come into force ~~from the current year~~ commencing with the next Budget for 1925-26.

10.	Local Boards and Municipalities and such other offices and institutions as may be specially included.	When they send any printing work.

2. The payments made by departments like the Railway and the University for printing work done at the Press are at present merged in the receipts of the Department and are not available for the expenditure of the Department. In cases in which the work required to be done has not been foreseen and provided for in the budget there is some dislocation of work in the Press. In order to avoid the inconvenience caused by this procedure, the Superintendent of Government Printing proposes that the payments made by the Departments for work done to them be made avilable to the Press for expenditure in connection with such work. Government observe that the inconvenience complained of is real. They consider however that to make the amounts paid by the various departments available to the Press when the work comes up to be done will not meet the difficulty as it is also necessary for the Press ~~in~~ in these cases to consider beforehand what ~~the~~ equipment is required and this cannot be done if work is given to it without previous intimation. The remedy lies in the Departments concerned foreseeing the quantity of printing work that is likely to arise and keeping the Press informed of the same. To ensure that this is done, Government direct that each of the departments above referred to should make a provision in its budget estimates for payments to the Press for the printing work likely to arise in the course of the ensuing year and intimate the same to the Superintendent, Government Printing in the month of February. The Press budget will show all such amounts as minus entries on the expenditure side indicating a gross and a net grant for expenditure. Both the Press and the Departments concerned will thus have a clear idea of the printing work that might have to be done on their account in each financial year. Printing work from these departments other than that provided for in this manner will not ordinarily be undertaken in the Government Press without the sanction of Government and necessary funds therefor being placed at the disposal of the Press by the Departments concerned.

3. The procedure of minus entries will not apply to payments received from local bodies for publication of matter in the Gazette or for the supply of spare copies. Such payments may continue to be shown as receipts in the Press Budget as heretofore.

4. The revised arrangements will come into force commencing with the budget for 1925-26.

B. RAMASWAMAIYA,
Offg. Chief Secretary to Governme

To—The Agent, Mysore Railways.
The Chief Electrical Engineer.
The Director of Industries and Commerce.
The Director of Agriculture.

The Comptroller (through Finance Deptt)
The Director, Sandal Oil Factories.
The Deputy Commissipners of Districts.
The Presidents of Mysore and Bangalore Municipalities.
The President, Kolar Gold Fields Sanitary Board.

Copy of Financial Secretary's note dated 4th January 1924 in Genl. Dn file No. 133/23-4 Printing & Stationery budget for 1924-5 :-

The points of difference between the Superintendent, Stationery and Printing and the Comptroller are considered below:-

Cost of printing paper and Stationery Rs. 25,000.

" The Comptroller has provided Rs. 1,50,000 but the Superintendent wants Rs. 25,000 more and the reason assigned by him to justify this additional demand is as follows:- "Complaints are numerous that the paper and stationery supplied on the basis of 50 per cent of average consumption are utterly inadequate" The Second Member has suggested that either the addition proposed by the Superintendent may be allowed or that the Departments like Education which consume paper on a large scale may be required to pay the cost of such paper from their own budgets. The grounds on which the Superintendent and the Second Member propose the addition are altogether different. The ground urged by the former ought not, I think, to be allowed much consideration. Reduction in the supply of paper and stationery has otherwise advantages than saving in the cost. I think it is necessary to presevere in the campaign of economy on the consumption of stationery and paper. The addition proposed by the Superintendent, may therefore, be disallowed.

" The point raised by the Second Member is altogether different and it has to be independently considered. For settling it, it will be necessary to ascertain what is the quantity of paper which the Stationery Depot is now purchasing for meeting the special demands of

of Departments like Education. Until accurate information in this respect is obtained, it will not be possible to say to what extent the grant to the Stationery Depot should be reduced or that to other departments should be increased. From the Budget point of view, reduction under one head and addition under another make no difference. The proposal made by the Second Member will certainly be an improvement by bringing under the consuming departments the total cost of supplies taken by them but this is a new principle of classification in Public Accounts and though modern opinion is in favour of adopting this principle, it has not yet been brought into force except in the case of Army in the United Kingdom. This is a large problem and if its solution is attempted, the transfer of charges from supply departments like Stationery and Printing and Public Works to Service Departments like Education cannot be limited to particular items and the redistribution will have to be made on a wholesale scale.

Give away 1,50,000 Sd/ A R-B

Piece work establishment-- Rs. 10,000.

" The Comptroller has allowed Rs. 60,000 but the Superintendent wants 70,000 and the Second Member considers this addition to be necessary. I think this is another item under which economy must be enforced. A large grant is generally a temptation to spend more. In the year 1922-23 the actual expenditure was only Rs. 54,172. The Budget grant in the current year is

(84

is only 60,000 although the revised is expected to exceed it. I think economy on an item of this kind is best enforced by the limitation of grant and for this reason I think the addition asked for may be disallowed and the Department required to examine the items of work for which this establishment is maintained and see which of them can go or be reduced.

I agree

Materials and type 3,000.

The Comptroller has allowed Rs. 15,000 but the Superintendent wants Rs. 3000 more or Rs. 18,000 in all. This demand is supported by the Second Member. The actual expenditure in 1922-23 was Rs. 16,000 and the current year's grant is only Rs.16,000 I think it is sufficient if an addition of Rs. 1,000 or a grant of Rs. 16,000 in all is allowed and the balance of Rs.2000 may be disallowed.

Give 18000-
